Solar Energy Policy 2025

Reporting period: 2025–2026

Executive overview

This example source demonstrates how Nexora AI connects a source document to a content map, protected facts and generated outputs. It is demo content for the frontend until a real backend document is connected.

Key figures

- Solar capacity increase: 35%
- Total investment: ■ 240 Cr
- Highest growth state: Rajasthan
- Target: 500 GW by 2030

Source sections

Policy overview • Solar adoption • Investment • Regional growth • Targets • Implementation • Challenges
